

victor Unified

Centralized Video and Access Control Management

Unified C·CURE Interface

Manage access control and video surveillance from one powerful user interface.

Centralized Command

Share video and events across the Command Center. Open integrations enable workflows with other building systems.

Increase Awareness

Gain greater situational awareness by correlating access control events with video intelligence.

Swipe and Show

Combine personnel records with real-time data to quickly discern card holder misuse.

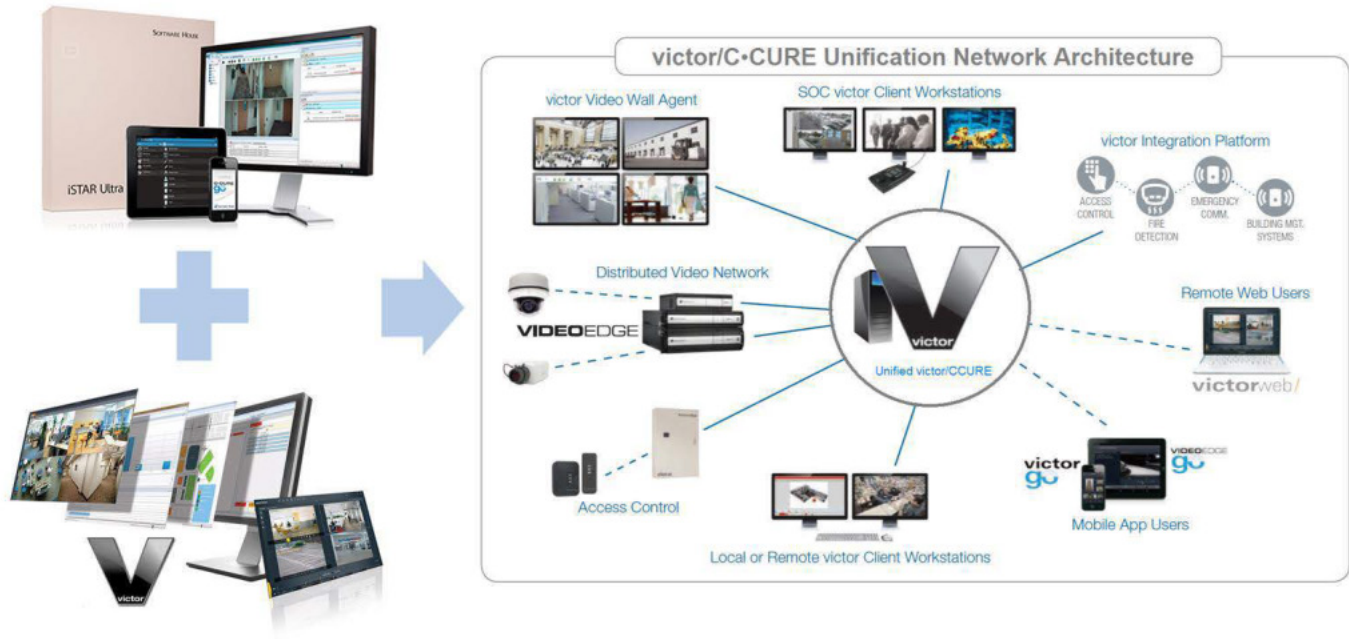

Unified Reporting

Increase business intelligence from combined access and video data reports.

GIS Mapping and Objects

Create a digital twin of your video & access systems to mitigate threats, tying alarms to location for decreased response times.
